Forecast for Monday 25 Sep 2023

Weather: Low cloud will lift and break as the day progresses, allowing increasing sunny spells and isolated showers. Any showers fading by late afternoon, becoming dry with clear spells to end the day. Patchy mist and fog forming overnight, particularly in the southeast.

Chance of cloud-free hill tops above 600m: 40% increasing to 90%.

Low cloud and visibility: Cloud bases around 500-600m first thing, mainly on southern and western facing slopes. Lifting to around 800m by the middle of the day, then lifting further and breaking up during the afternoon, with most summits clearing. Visibility will be very poor in low cloud covering hills at first, and in any mist or fog, but will otherwise be very good during daylight hours.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Despite the time of year, there will be Moderate UV levels, particularly through the middle of the day, so extra sun protection may be required.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 23 Sep 2023	0.4mm	0.6mm	14.2mm

Forecast for Tuesday 26 Sep 2023

Weather: Any mist or fog clearing quickly, leaving a bright start to the day. Cloud building from the west through the morning as a band of heavy, potentially thundery, rain moves eastwards around the middle of the day. Sunny spells developing as the rain clears east with a few isolated showers.

Maximum wind: South to southwesterly, 30-35 mph with gusts up to 50 mph.

Chance of cloud-free hill tops above 600m: 80%, decreasing to 40% through the middle part of the day.

Low cloud and visibility: Mist and fog may briefly cover slopes and summits as it clears through the morning. Scattered cloud will generally have bases around 700-800m, but will thicken and lower to around 400-500m as rain moves eastwards through the middle of the day. Generally good visibility, but very poor in any early mist and fog, and poor in heavy rain and low cloud.

Temperature: **Valleys:** Plus 13 Celsius rising to plus 18 Celsius.
At 600m: Plus 10 Celsius rising to plus 14 Celsius.
Freezing level: Above all summits.
